

BATTERY SPILL RESPONSE KITS

The OSHA Regulations State that all employers must provide the equipment necessary for cleaning-up of hazardous battery electrolyte spills. The Battery Emergency Response Kits offered by MTC provides all the materials you need to safely contain and clean-up battery electrolyte spills.

The easy to follow step-by-step instructions found within the kit make clean-up as easy as 1-2-3. These instructions also explain how the BERK can be used to safely dispose of the hazardous electrolyte after cleaning.

The design of the kit allows it to be used anywhere within your battery room. The kit's components are replaceable, and in most cases, the components can ship within 24 hours.

BERK-S

BERK-L

FEATURES

Personal Safety Wear – Includes Chemical Resistant Gloves, Apron & Shoe Covers. Goggles with Side Shield

Clean Up Equipment – Includes Chemical Resistant Scoop & Brush

Spill Neutralizing Absorber – Includes 30 lbs. of neutralizing acid absorber in a 6-gallon pail

FEATURES

Personal Safety Wear – Includes Apron, Face Shield, Chemical Goggles, Gloves (2) pair, Steel Toe Chemical Resistant Boots

Clean Up Equipment – Includes Chemical Resistant Broom and Shovel

Spill Neutralizing Absorber – Includes a 48 lbs. pail of neutralizing acid absorber

ADVANTAGES

- Satisfies Regulatory Requirements for Stationary and Motive Power Batteries. OSHA 1926.441 & 1910.178
- Neutralizing Acid Absorber Contains No Hazardous Ingredients
- Labeled with Full Use Directions and Abbreviated MSDS
