

KC-RACK Series

SPECIFICATION SHEET

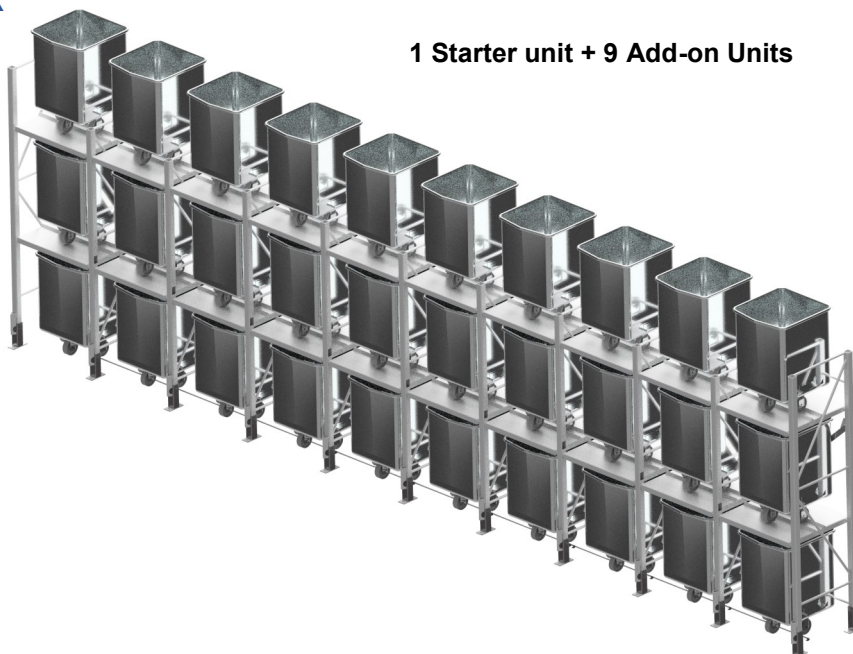

MTC Kitchen Cart Rack

1 Starter unit + 9 Add-on Units

The Model KC-Rack is Designed to provide our customers with a safe and economical solution for storing kitchen carts for extended periods of cooling, pickling, hardening, or ripening. Made from tube and panel stainless-steel, this heavy-duty structure can store 400 lb. or 600 lb. kitchen carts up to three rows high.

Model # KC-RACK-BASE

Model #KC-RACK-ADD-ON

The Model KC-Rack is Designed to Provide unlimited expansion as your operation grows.

Units bolt together using hex head screws and lock nuts. All uprights are anchored to the floor.

Purchase the base unit, which is 1 column X 3 kitchen cart spaces high.

As your operation grows, purchase as many add-on units as required.
