

LE-SL-TLT Series

SPECIFICATION SHEET

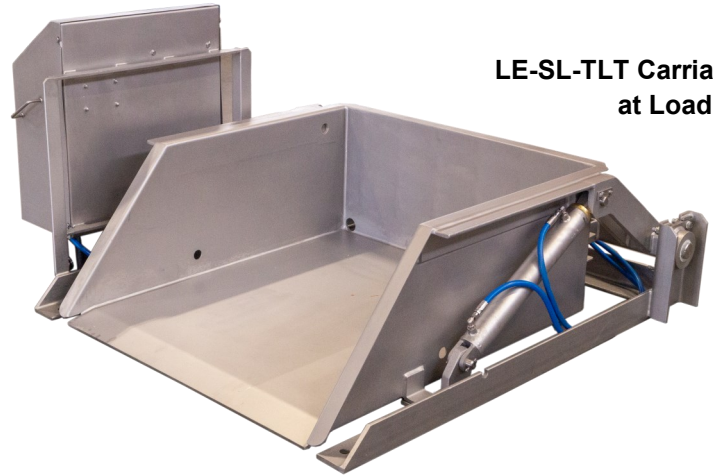

MTC LE-SL-TLT Dumper

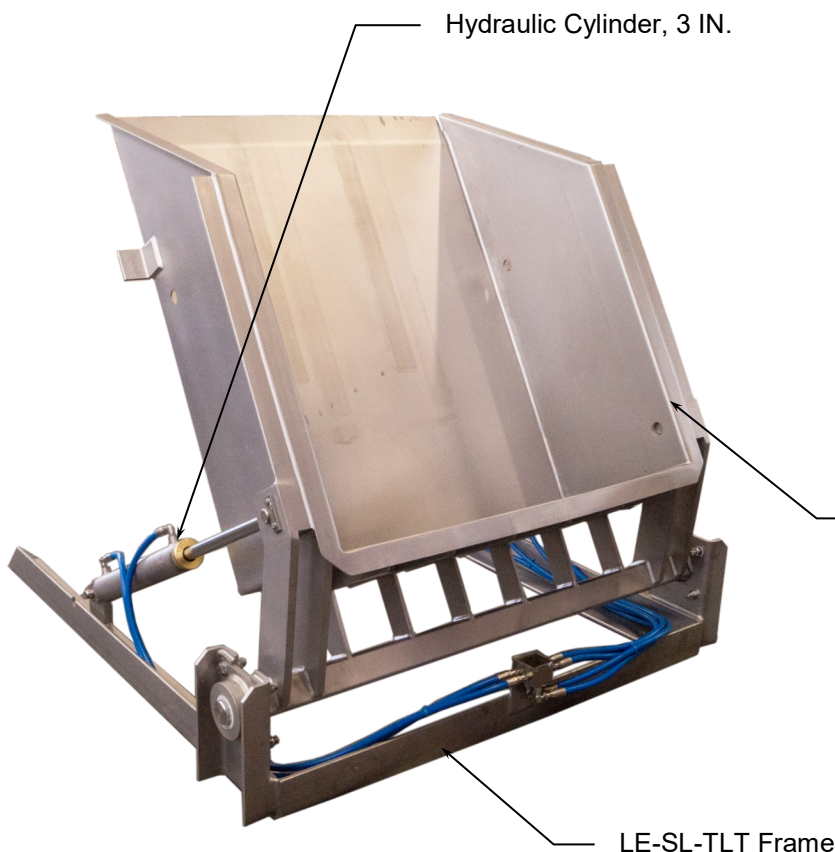

The MTC Model LE-SL-TLT hydraulic dumpers were designed to provide our customers with an easily cleaned and highly dependable tool for tilting your product up to 60 degrees for operator access in a clean environment. The LE-SL-TLT's heavy-duty stainless-steel construction ensures long life and trouble-free operation, along with ease of sanitation. The LE-SL-TLT has a lift capacity of 1500 lbs.

The LE-SL-TLT hydraulic dumper is powered by a 1.4 GPM/1.5HP hydraulic power unit that enables the LE to lift your product to any angle as required for operator safety & convenience.

The LE-SL-TLT operates on 115 volts and uses a 10' tethered, remote pendant with hold-down push-button controls for operator convenience.
